## Thompson Quits School Committee

The resignation of Richard E. Thompson from the Bethel Superintending School Committee has been announced. Mr. Thompson was elected in March 1961 for a three year term, succeeding Mrs. Philippa Glines. The following statement from Mr. Thompson outlines his opinions and reasons for the resignation.

On June 28th, I resigned as chairman and school committee member of the Bethel School System, in complete disgust of my former colleagues. I feel that it is extremely important that the people of Bethel know the reasons and conditions warranting this resignation. It is hoped that this article will open the eyes of most of the voters of Bethel, or we will surely surrender the education of our children to a small group of school board members with a desire to act only with regard to their own desires and with no relative concern over the wishes of the people of Bethel. After reading the following, you may or may not agree; but it is hoped you will at least be little concerned.

I have discussed the school over-crowded problem with a volume of people in Bethel and it is my general feeling that the people of Bethel are primarily concerned with local education first. Our schools are now over-crowded and we are spending over \$40,000.00 for two new rooms which will not help in eliminating the condition. The teachers in Bethel know more than anyone else that an over-crowded room is extremely poor, not only for the teacher but the students as well. Strange as it may seem, teachers are human and must distribute their time with each student. If a class is over-crowded some child must do without proper attention. That child can be yours or mine and I'm sure that I don't like the idea of mine doing without attention, if needed. Each child is entitled to an education.

At one of the school committee meetings extensive discussion was made in regard to Newry students coming to Bethel on a tuition basis. The committee voted to take the 8th grade. I voted no to this issue. The following two meetings were devoted to the issue of taking Gilead on a tuition basis. I objected to Newry coming to Bethel and I also strongly objected to Gilead. It is my sincere belief that we should not sacrifice our own children's education for the sake of bringing in additional enrollment. It is plain stupid to bring in more when we presently have more than can be properly instructed.

Bethel taxpayers are now in the process of a higher rate than previously experienced, which is reflected by the two new rooms currently under construction at the Crescent Park School. Our classes are over crowded, but the addition of this construction will not eliminate this condition. The construction will only eliminate the unpleasant conditions of the basement class rooms in the Primary School. The increase in taxes for the school construction was no doubt favorable to all of us since we definitely want the best education possible for OUR children. The construction was approved by the Schools Needs

## COMMENTS FROM THE TOWN MANAGER'S OFFICE

Mechanic Street is now finished except for the mulch wearing surface which will be applied in three or four weeks. The soil cement base took half of Friday to complete because of a break down and one piece of hired equipment being late. A rear axle broke on the grader Thursday morning and held up use for about two hours. We were fortunate in getting one of the state graders to help us finish up Thursday afternoon and Friday morning. The curing seal was applied Monday morning and the highway crew is going to continue with the town road tarring.

The town still has three manholes to construct in the bridge construction area but work won't start on them until the contractor on the highway job tears up Railroad Street in the construction area. The contractor plans to get the traffic going over the new bridge before he does much work on Railroad Street and Church Street.

The tax liens were filed last week at the registry of deeds in South Paris. These liens are an extra cost to the property owners involved in that they would pay interest and other charges when they do pay their taxes. Most of these taxes are paid before the liens expire and some could pay them before the liens are filed. It would be much better for everyone involved if these taxes were paid on time. Of course these delinquent taxpayers only make up a very small percent of the people in town but a fourth grade section possible, though Gilead has no students in this grade. The net cost to Bethel may be about \$500, the amount by which Bethel's starting salary for degree teachers exceeds the tuition receipts from Gilead.

With 18 school rooms in Bethel village, the 19 Gilead pupils increase the number in Bethel classrooms by an average of one per room. The Committee feels this slight increase is more than compensated for by the opportunity to reduce the fourth grade sections from 38 and 39, to 25, 26, and 26, and by the added functions of the Principal. Fortunately, most of the students from Albany and Gilead are in the smaller rather than the larger classes.

The pre-school census indicates the fourth consecutive "small" class entering school next year. It now appears that none of the primary school rooms will have more than 26 pupils. Overall, Bethel will average 27 or 28 pupils per teacher, compared to a national average of 27 and a state average of 29.

Mrs. Carrie Loring of Yarmouth is spending some time at the home of John W. Carter, Maynard.

The one-time Stowell buildings above Riverside Cemetery have been moved to the property of Henry Godwin at Mayville.

Among those receiving 20-year awards for extension work in Oxford County was Frank W. Hogan of South Paris, Constance Cooper, Buckfield, and Ruth C. DeCoteau, South Paris, received 10-year awards.

The presentations were made at the annual conference held at the University of Maine.

## Teacher Assignments Changed at CP School

The Bethel School Committee has voted to instruct next year's fourth grade in three sections, as was done for the eighth grade this past year. Seventy-seven pupils are expected in this unusually large class. The new eighth grade, average in size, will have two home rooms but will be taught by three teachers specializing in different fields, following the practice started last year. Principal Charles Heino will fill one of these roles, but will now have more time available to supervise and assist other teachers and to work on curriculum development. These duties follow the recommendations of the 1961 School Survey Committee, and are expected to substantially improve student education in the future.

It was incorrectly reported to The Citizen, two weeks ago, that Gilead pupils would not be accepted in Bethel schools next year. No vote was taken at that Committee meeting, but the consensus was that the second room at West Bethel should not be kept open. This room had been primarily for the benefit of Gilead pupils although the tuition paid by Gilead did not fully cover the cost of the extra classroom and teacher. Under the new arrangement the \$3500 expected from Gilead makes the extra fourth grade section possible, though Gilead has no students in this grade. The net cost to Bethel may be about \$500, the amount by which Bethel's starting salary for degree teachers exceeds the tuition receipts from Gilead.

With 18 school rooms in Bethel village, the 19 Gilead pupils increase the number in Bethel classrooms by an average of one per room. The Committee feels this slight increase is more than compensated for by the opportunity to reduce the fourth grade sections from 38 and 39, to 25, 26, and 26, and by the added functions of the Principal. Fortunately, most of the students from Albany and Gilead are in the smaller rather than the larger classes.

LETTERS TO THE EDITOR

July 2, 1962

To the Editor of the Bethel Citizen:

Dear Sir:

During my stay in Bethel last summer I had occasion to point out in a letter to your esteemed newspaper that the Town of Bethel lacked a public bench for the convenience of those whose weariness necessitated the use of one, while they were in the village. Many people acknowledged the need for the convenience when the lack of it was first called to their attention. I had high hopes that in the early summer of 1962, I could hear the music of rustling leaves, while comfortably seated on a public bench on the village green. My disappointment is shared by many.

When God created man, He provided the means for man to stand, lie and sit. Squatting and crouching are merely adaptations of one or another of the three basic positions with which man is endowed. The citizen of Bethel can stand or lie on the village green but he can't sit there. Of course he can squat and crouch, but these are hardly substitutes for comfortable sitting. It is difficult to follow the basis of the

—Sign in an Arlington, Texas, store.

"Of the 100 top firms in the country 50 years ago, no less than 68 are missing from the list today. Others still exist but have lost much of their former standing. Why? One fact was common to all. They failed to earn enough profit to pay all their costs and provide for future growth. Whatever the cause of their failure, thousands of jobs vanished with them."—Fafnir News, publication of the Fafnir Bearing Co., New Britain, Conn.

logic that induces the "Town Fathers" to make provisions for standing and lying but denies to the citizen his inalienable right to sit. If God provided for sitting in the Garden of Eden, how can it be bad for Bethel?

There are other concomitant denials and disadvantages that the absence of benches produces. The poet Kilmer wrote that "Only God can make a tree." That is true, but only man can make a lap. However, to produce a lap he must sit. Laps are useful and important. They support heavy packages, restless children, and are good for cuddling, a use the importance of which should not be underestimated. It is the constitutional privilege of every American citizen to use his lap for the aforementioned purposes. In Bethel that basic right is being denied to those who would avail themselves of it by the failure to provide benches on which one can sit.

Isn't it ironic that in an era in which man is getting ready to fly to the moon, the citizens of Bethel can't sit on a bench on their village green?

It is hoped that those public officials who can order the erection of these benches will be moved to reasonably rapid action. There was a time in the long, long ago, when one could tarry on the porch or plaza of a kindly neighbor to alleviate his weariness. There would be a shady seat and a cooling drink; but that was in a leisurely and kindly era. There are few porches today, and fewer still where one would be welcomed in his tiredness. Perhaps word of comment from other citizens of Bethel might not be amiss. It is hardly likely that a wide-spread desire for this much-needed facility, will go unheeded in the face of a unilateral demand.

Sincerely,

Mark E. Cunneen

leaders must constantly—as they did only recently—berate their agricultural commissioners to produce more.

That fact that the free capitalist system can always provide the abundance and security which a socialist system like communism promises but can never produce is dawning on a great many average Americans. This may explain the somewhat delayed but none-the-less deep shock displayed in many quarters about the administration's war on our free enterprise system which was spear-headed by the President's famous attack on the steel industry. Certainly there is something ironic in building tremendous and necessary military establishments to resist aggression and at the same time making war on the system which not only provides the taxes for the sinews of defense, but it is the greatest possible protection against the bare subsistence of socialist communism.

It was interesting to note, too, a somewhat ambivalent attitude on this subject by young Attorney-General Bobby Kennedy. He told a meeting of newspaper publishers last month that he was concerned about the image of American capitalism abroad—that other peoples often thought of us as "a selfish system of government, that we are interested only ourselves." He thought this could be corrected—while himself was using the Justice Department to implement his brother's war on American business—by sending cabinet officers, professors, musicians, and others around the world.

Naturally, this raised the question of what kind of cabinet officers, professors, musicians? The Harvard brand of professors, perhaps, who is so busy in Washington with leftist theorists, to weaken capitalism? The Orville Freeman brand of cabinet officer who is busily winding more government red tape around American agriculture? The type of left-wing musician who is invited to the White House?

But seriously, it is not time after pouring out nearly a hundred billion dollars of our substance to the world at large—that we realized that we will never make all the peoples of the earth love our system of economic life? All we can ask is that they respect it, as they

THOMPSON RESIGNS FROM BETHEL SUPERINTENDING SCHOOL COMMITTEE

—continued from page one to the town of Gilford, if they desired school space. With the room rented to Gilford, it would no longer be the responsibility of Bethel to pay for their teacher. My recommendation was passed over and the vote went through.

There is very little purpose in a summary of the actions of the school board. What is being done behind the backs of the voters is disgusting, to say the least. I sincerely hope there is just a little interest in this matter by the people of Bethel. If you are interested I suggest that you take just a few steps to correct the situation. First contact any of the teachers in Bethel and ask for their opinion as to the damage done by over-crowded rooms, then stop a minute and think where you tax dollar is going, and what it is doing. Then ask one of the school committee members to verify your findings and listen closely what he says, because you will hear the finest DOUBLE TALK ever voiced in the state of Maine. If after all this you are then still not interested, don't feel ashamed, and above all, don't

in closing I suggest that serious action be taken by every person in Bethel to stop the formation of a consolidated school, before it is too late. Richard E. Thompson

## HEALTH &amp; SAFETY TIPS FROM THE AMA

## Overweight Children

Faulty eating habits started in early childhood often are the cause of overweight adults in later life.

All too many mothers, with the best of intentions, nag and wheedle their small fry into eating more than they want to eat. The healthy, fat baby who remains chubby as he grows into pre-school and first grade years becomes less attractive as an individual. And the habit of eating more calories than necessary are likely to remain the rest of his life.

The parent should not be the one to decide whether the child should lose weight, how he should lose it, or whether he should continue to remain "pleasingly plump," says Today's Health, the magazine of the American Medical Association. The doctor should be consulted.

If it fits your doctor's counsel, here are some tips to help your youngster lose weight.

Weigh once a week and keep track of the weight. Use the same scale and wear approximately the same clothing.

It isn't necessary to cut out all desserts and snacks, as long as their calorie count is included in the daily total. Fresh fruits are good for snacks.

Keep a supply of raw carrots, radishes, celery sticks and pickles for more snacking. Tomato juice or clear bouillon can

serve for drinks.

Use smaller plates in serving meals, so that the portions will look larger. Encourage the family to eat slowly and really taste the food.

Cut out rich salad dressings; instead use vinegar and lemon juice.

Trim fat from meat, take it easy on the butter and substitute skim milk for whole milk. But be sure to get sufficient Vitamin A from fruits and vegetables.

The most important factor in helping the obese child to reduce poundage is to handle it naturally. Don't make a point of telling the child he is on a reducing diet. Just serve the meals naturally and as a matter of course. Avoid nagging the child about his diet. It will only make him rebellious and more inclined to snack on the sly.

### JAYCEES

#### BETHEL TEEN COUNCIL

On June 20, a group of interested teenagers met at the home of Mr. and Mrs. John Greenleaf to reorganize the Jaycees Bethel Teen Council. This year the Council is made up of seven interested teenagers and three advisors appointed by the Jaycees. The advisors work with the Council providing dances for the teenagers in the Bethel area. The advisors are John Greenleaf, Alfred Charest, and Sonny Blake. The officers of the Council are the following: chairman, Julia Brown; secretary, Loraine Eames; treasurer, Eddie Tibbets; publicity chairman, Kathy Clemons; Refreshment chairman, Al Grover and chaperone chairman, Mike Chretien. Other teenagers on the Council are: Carol Flint, Gertrude Waldron, Jane Luxton, Bob Clemons and Lary Jacobo.

At the first meeting, plans went underway for our first dance which was Friday, June 9, from 7:30-10:30. Because of the break in the sessions of NTL, we were able to use the Gould Academy parking lot. Lobster Shorey from WRUM was the disc jockey. No admission was charged, and Nancy Brown was the lucky winner of the free door prize. It was estimated that about two hundred teenagers attended. Thanks go to Mr. and Mrs. Alton Luxton, Mr. and Mrs. Donald Chretien and Mr. and Mrs. Alfred Brown, for chaperoning.

The Council has the use of the Community Room for all of the dances. They will be from 7:30-10:30. There will be an admission charged and potato chips and soft drinks will be sold. The dress for all the dances will be school clothes unless otherwise stated. A variety of subjects for the dances will be used throughout the summer.

The Council is up in the air about planes. In fact, 41 per cent of America's 70,000 private planes are used for business." — Flying Magazine.

"Business is up in the air about planes. In fact, 41 per cent of America's 70,000 private planes are used for business." — Flying Magazine.

It is hoped by all the Council and advisors that the teenagers of the Bethel area will come to the dances and have a good time.

The Council would appreciate any volunteers from parents to chaperone. Our dances will only be successful with full co-operation from our parents. Anyone interested in chaperoning please contact Mike Chretien.
